FCS Crime Watch Tips

Crime prevention is the practice of identifying and removing the opportunity For crime to occur.

Make sure all your doors (Including screen doors) and windows are locked.

Keep garage doors closed even while doing yard work.

Do not keep GPS Devices, loose change in view or other items in unattended vehicles.

If you have a security (alarm) system, use it. If you don't have one Feel free to call me to show you what we have to offer! We have free systems and other offers that you have no "contract"!

If you must leave a key outside for someone, venture beyond the obvious and Find an uncommon location, (not under the door mat, or in the gas grill, or that out of place rock by the front step) reducing the opportunity for the wrong person to find A key. The best rule is to not leave a spare key anywhere as most criminals will Be able to find it. (Keyless door entry that we offer with the alarm system is great)

Be AWARE and ALERT of your surroundings and report unusual activity. Chances are that if it looks unusual, it is. (Trust your gut)

If someone claims to be from the City or a Tree/ Landscaping, gas, company Etc.... ask for credentials crooks and scam artists work in pairs. (Be careful not to get lured out of your home to go to the back yard while another person will enter your home in the front door while you are pre-occupied showing the person property lines or sewer, gas lines etc...)

Turn porch lights on at night. Use cost effective bulbs. Use a timer if you work Late. (Think back to home alone don't set it at the same time each and every day)

Use timers inside your house to turn televisions, radios, and lights on when you Are not home...giving the crook reason to believe folks are home. (Did you know that an alarm system can do this now a days? Right from your smart-phone or internet connection.)

Keep your yard neat, bushes, shrubs, etc. trimmed, make it easy for a neighbor To spot the unusual and call 911.

Plant thorny bushes under vulnerable windows (this keeps the kids from sneaking out.... Oh, I mean it can deter would be burglars)

Make sure flood (sensor) lights are working. (Crooks hate light and sound) When mounting lights mount them high so the bulbs can't be easily unscrewed)

Build your fences with the posts in your property, not on the outside...outside Makes for a nice ladder for the criminal. (Speak of ladders make sure any outside ladders are secured.)

Make sure your garage door opener light comes on when you open and close Your garage door so as to see inside and outside the area.

And most important: Get to know your neighbors. Swap phone numbers (home, Work, cell) so you can reach each other if you see a problem or need them to watch Your home for you.

Call Professional Security Consultant Daniel Narreau (413)-246-4572. For a no-obligation 1 hour security audit of your home.
